

BEAUTIFUL AROMAS REVITALISERS

OPERATING INSTRUCTIONS

BEAUTIFUL
aromas

IMPORTANT INFORMATION:

1. Use only **cold**, clean water when operating and cleaning your revitaliser.
2. Ensure that your revitaliser is switched off when filling and cleaning.
3. Never let the water level in the bowl drop below the minimum line.
4. Do not use pure essential oils as they do not dissolve in water and may damage your unit.
5. Cleaning your revitaliser regularly is important. Clean air cannot be obtained from a dirty unit.
6. The leaf & dome revitalisers filter 75m² & the USB revitaliser filters 15m² single volume of air every hour & can be moved to different areas as required.
7. Please keep the revitaliser and essential oil concentrates out of reach of children.

A breath of well-being

OPERATING INSTRUCTIONS:

1. Fill the bowl with clean cold water **between** the minimum and maximum lines.
2. Add the amount of Beautiful Aromas concentrate in accordance with room size and personal preference, ideally between 5 - 10 ml per application.
3. Place the revitaliser top onto the bowl.
4. Position the revitaliser on a stable, level surface.
5. Connect the revitaliser to the applicable power source (power socket or USB port) and switch on.

CLEANING YOUR REVITALISER:

1. **The Bowl** - rinse daily with clean **cold** water before adding the concentrate. Wipe the inside with a clean cloth or paper towel if dirty. **Do not** use abrasives or cleaning agents.
2. **Funnel** - Clean it at least once a month. Take note of the position of the funnel before removing it, you would notice little markings on the disk and the funnel to identify its current position e.g. 3 o'clock, 9 o'clock etc. Unlock the funnel by holding the disc and turning the funnel anti-clockwise. Lift the funnel away from the slots and rinse under cold water. Remove any dirt in the funnel with a cloth, brush or cotton bud. Replace the funnel in the same slots of the disc and turn clockwise to lock it into place.
3. **Revitaliser Top** - wipe the top inside and outside on a regular basis with a damp cloth only. Do not immerse in water! Make sure to remove any dust and moisture.

WARRANTY VOID

- Improper handling, abuse or failure to clean the revitaliser will deem the warranty void.
- Beautiful Aromas concentrates are water soluble & specially formulated for water air-purifiers. Using any other liquid or substance will deem the warranty of your revitaliser null and void.
- The revitaliser should not get hot when in use. If it does, switch the unit off and contact your Beautiful Aromas supplier.
